The Global Cyber Agenda for Kill-Switch Domination

Talpiot, Unit 8200 and the Ascent of Cyber

Talpiot = Special Forces Engineer Training for Management of Strategic Tech Domination

3 years in Physics, Math or CompSci while field training across all IDF branches, then 6 years service in IDF

Unit 8200 = Israeli NSA and engineering force/source for Israeli cyber power worldwide

Dagan's Mossad (HUMINT) + Zeevi-Farkash's AMAN/8200 (SIGINT) = HUGINT (Cohen)

Talpiot/Unit 8200 power as result of long-term Israeli Technical Intelligence (LAKAM)

In an age of the ascent of CyberWarfare, should we talk about TECHINT or CYBINT?

“Crime Minister” Netanyahu: Now and Then...

“We not only do it for us, we share it with dozens of countries. We've prevented dozens of terrorist attacks, major terrorist attacks. So, when you take security interest and *intelligence* - that countries have to protect themselves against terrorism, and that's pretty much all countries - and you take the needs for technological- the innovation that is driving the world right now, both of them are present in Israel and so everybody wants them. And that gives me the third thing, which is this massive flourishing of Israel's diplomatic relations with just about every country in the world. Not all. We're not big on North Korea you know, not too big on Iran, but just about everyone else. And so, this is the triangle: it's *economic power*, *security power*, gives you *diplomatic power*. That will take a few years to transit itself into the votes of this archaic body called a General Assembly of the United Nations, or some of the other bodies. It'll take a while until they get the news, but it's happening all over the world. So, Israel has never been stronger militarily, economically, diplomatically, and it's a very deliberate policy and actually it begins with economics.” **Benjamin Netanyahu** from Interview with Mark Levin on Fox News Published March 11, 2018

“I will soon declare the ‘technological scientific program to strengthen Israel’s security,’” Netanyahu told science ministers and delegations from 25 countries at a convention in Jerusalem...“Among other things, the revolutionary program will advance Israel in quantum technology. That field is vital for Israel’s intelligence.” from “*How Quantum Physics Can Make Israel More Secure*” by Shoshanna Solomon in *Times of Israel* (5/30/18)

1979: Harbingers of 9/11 & GWOT, Agents & Talpiot

- Jerusalem Conference on International Terrorism - organized by Netanyahu
- Father of Israeli Intelligence Isser Harrel foretells to journalist Michael Evans:
My last question was would terrorism ever come to America. "You have the power to fight it," he said, "but not the will. They have the will, but not the power. All of that will change in time. Yes, I fear it will come to New York and your tallest building, which is a symbol of your fertility."
- Shaul Eisenberg (Mossad/Beit Asia/Israel Corp) flies Israeli military covertly to China
- Yossef Bodansky (LAKAM) arrived in USA (helps create Technology Transfer Center)
- The Talpiot Program begins

'SECURITY': Security Grows Out of a Mushroom Cloud

Samson Option 0.1: Subterfuge, rumors of war mongering & bombs (mid 1800's to mid 1900's)

Samson Option 1.0: Spying, false-flag assassinations & the Macro Nuclear Threat (1950's-1970's)

Samson Option 2.0: Technology transfer, False-flag terrorism & Tactical Micro Nukes (80's- 9/11 era)

Samson Option 3.0: Mass MKUltra (ConOPS), Global Talpiot/Unit 8200 & Kill-Switch Diplomacy (Now-Future?)

ECONOMICS: Fire up the “Firms” with a little 9/11?

“Now, there are new industries. Israel is literally, how can I say this: Israel is literally driving the world. I’m talking about autonomous vehicles. Israel is a world leader in autonomous vehicles. Five hundred tech companies that sprang up almost instantaneously. And one of them, MobileEye up there on the left, was just sold to Intel for the paltry sum of 15 billion dollars. But the interesting thing is that Intel said to them, “Here are the keys to our 30 worldwide autonomous vehicle businesses. You run it.” Israeli technology is driving the world!

And one last industry – there are many more – but one more that you’re all familiar with. You have bank accounts? You should, okay? Well, you don’t want anyone hacking into them, right? Or into your cars, or into the planes you ride? You need cybersecurity. Everybody needs cyber. Israel has become a world leader in cybersecurity... So, what percentage do we get of the world global investment in cybersecurity, in private investment in cybersecurity? We’re one-tenth of one percent of the world’s population, and we get a whopping 20% of global, private investment in cyber. We’re punching 200 times above our weight. Not two times, not ten times, not a hundred times – 200 times above our weight. That’s very strong.” --Netanyahu, **AIPAC 2018--**

DIPLOMACY (Kill-Switch): Civilian Carrot, Cyber Stick

“Now here’s how the dots connect. Because we have this tremendous capacity for security and intelligence, and because we have this tremendous capacity for civilian technology, for making the lives of people richer, safer, more productive, many countries are coming to Israel because they want to share with us these benefits. And that creates the third great change, which is a flourishing of Israel’s diplomatic relations around the world. You know, when I joined the Foreign Service 105 years ago, as the DCM to this city, Washington, the number two in our embassy, I think we had about 80 or 90 countries with whom we had diplomatic relations. Now the number is 160, and there are very few countries left...

We went to Argentina, to Colombia, to Mexico. And they say come back, come back. We want more. That is changing. All these countries are coming to us: India, China, Mongolia, Kazakhstan, all of them, Azerbaijan, Muslim countries. First time I visited Australia – tremendous. Far away though. So we’re coloring the world blue. And you know what? The numbers... You remember people talked about Israel’s isolation? Pretty soon, the countries that don’t have relations with us, they’re going to be isolated.

There are those who talk about boycotting Israel? We’ll boycott them.”

Benjamin Netanyahu, AIPAC 2018

What do we do about the “biggest security breach in history”?

- 
- 1) Vigorously Practice, Preserve, Protect and Defend Our First Amendment-protected Rights
 - 2) Make Boycott, Divestment and Sanctions an issue of Global National Security and Economics
 - 3) Push hard for 9/11 truth, justice, peace, freedom and dignity
 - 4) Permaculturalize the Pentagon: Eco-Army Corps of Engineers version of Talpiot (admittedly Utopian)

“Speak Truth Diplomacy”

“Those who won our independence believed that the final end of the State was to make men free to develop their faculties, and that, in its government, the deliberative forces should prevail over the arbitrary. They valued liberty both as an end, and as a means. They believed liberty to be the secret of happiness, and courage to be the secret of liberty. They believed that freedom to think as you will and to speak as you think are means indispensable to the discovery and spread of political truth; that, without free speech and assembly, discussion would be futile; that, with them, discussion affords ordinarily adequate protection against the dissemination of noxious doctrine; that the greatest menace to freedom is an inert people; that public discussion is a political duty, and that this should be a fundamental principle of the American government. They recognized the risks to which all human institutions are subject. But they knew that order cannot be secured merely through fear of punishment for its infraction; that it is hazardous to discourage thought, hope and imagination; that fear breeds repression; that repression breeds hate; that hate menaces stable government; that the path of safety lies in the opportunity to discuss freely supposed grievances and proposed remedies, and that the fitting remedy for evil counsels is good ones. Believing in the power of reason as applied through public discussion, they eschewed silence coerced by law -- the argument of force in its worst form. Recognizing the occasional tyrannies of governing majorities, they amended the Constitution so that free speech and assembly should be guaranteed.” - **Justice Louis Brandeis Concurrence in *Whitney v. California* (1927)** -
